AI IMPLEMENTATION & ENTREPRENEURSHIP

AI Consulting Agency Founder	2026 - Present
- Secured \$5,000 in automation contracts and generated an additional \$6,500 in consulting revenue. - Systematized hospital and school workflows with automation, saving schools an estimated 1,200+ hours of grading per term. - Estimated \$30,000+ in potential annual cost savings by converting staff time saved into monetary value.	
Aisha AI AI Implementation Intern	2025 - 2026
Led the implementation of AI call agents for an AI startup in Uzbekistan.	
TezTekshir & SozYodla Startup Projects	2025 - 2026
Raised UZS 20 million for TezTekshir and grew SozYodla to 1,000+ active users.	
Salen Academy Founder & AI Engineer	2024 - 2025
- Built an AI pipeline that converts STEM problems into narrated, animated solution videos; trained AI models and coordinated team delivery. - Scaled the platform to 100+ daily active users and won \$4,500 in a national startup competition.	

RESEARCH EXPERIENCE

Drone Delivery Reinforcement Learning Research	2026
Applied reinforcement learning to drone delivery in simulation using PyBullet and Gymnasium.	
Summer Hogwarts Research School Research Scholar	2023
Received full funding to research plant-generated bioelectricity with Dr. Farkhod Eshboev (NUU); co-authored a research article.	

EDUCATION

Presidential School in Gulistan	Gulistan, Uzbekistan
A Levels (2026): Computer Science A*, Mathematics A, Physics A. GPA: 4.9/5.0 SAT: 1550/1600	

SELECTED HONORS

President Tech Award: Finalist with Salen Academy (2025).
Next Gen AI Hackathon: 3rd place (2026). **National AI Hackathon:** Syrdarya regional winner (2026).
NASA Space Apps Challenge: National winner among 200+ teams (2023).

SKILLS & LANGUAGES

Technical: AI agent implementation, workflow automation, AI model training, reinforcement learning, PyBullet, Gymnasium.
Business: B2B sales, workflow integration, productivity and cost-savings estimation.
Languages: Uzbek (native), Russian (fluent), English (IELTS 8.0).
